Events/Festival, Ticket Seller and Promotional Rep

Freelance Gardener/Handy man

Interests

I have a passion for filmmaking, travelling, sports and people. I am particularly interested in documentary, travel, sport and cultural film-making. I have a range of different kinds of productions under my belt, including surfing, weddings, ski and snowboarding, sailing and travel, Music is a huge part of my life, I have large music knowledge from all sorts of genres, I enjoy unwinding, playing the guitar and having a bit of a sing song. I like to hike and camp, if I can do this in the snow with my snowboard I become a very happy man, surfing, cycling and anything adventure based, outdoors with nature are where I feel most at home. The most interesting exciting thing about this world is that we can explore it, I intend to do this, learning, teaching and growing, along the way.
